

Multi Step™ Stamping 103

(spot color stamping)

with Multi Step™ Wedding Couple

by Maria Colosimo

Materials:

- acrylic stamping blocks
- inks
(dew drop ink pads or markers for spot color)
- baby wipes

NOTE: Covered in Multi Step Stamping # 102, this tutorial will stamp the finished image by stamping backwards. Starting with Step #6 and continuing to Step #1.

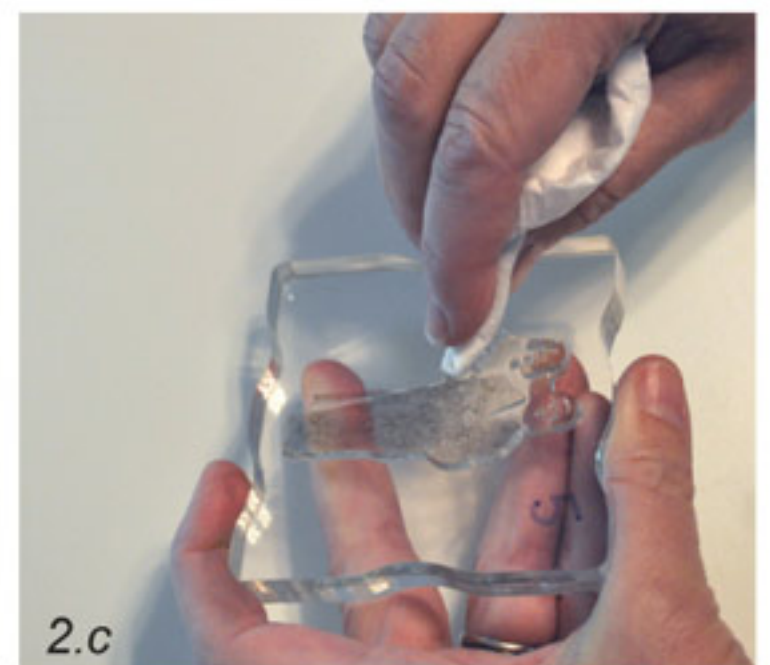

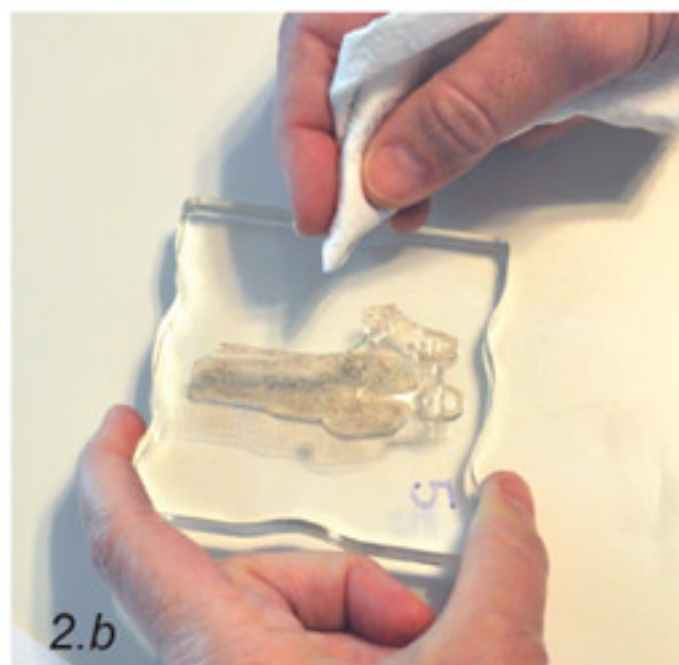

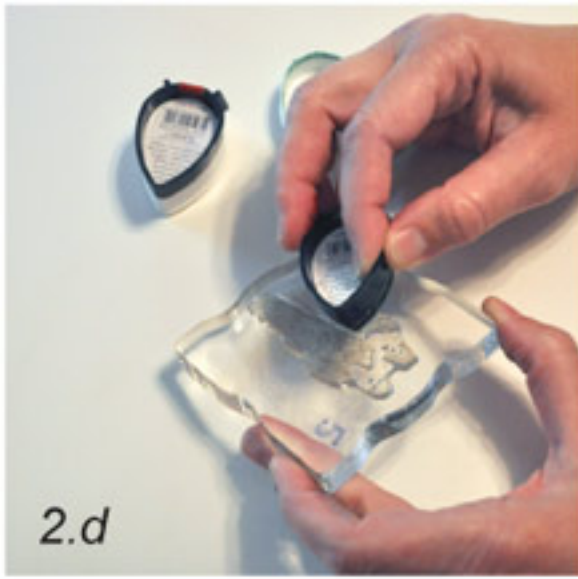

1] Fully ink up and stamp Step #6 with Onyx Black (*VersaFine*).

2] 2a: Fully ink up Step #5 with Smokey Gray (*VersaFine*) and stop.

2b: Using a baby wipe, fold the wipe until there is a point.

2c: With the point of the baby wipe, wipe clean the roses and stem area.

2.d

2 cont.] 2d: Start with the spot color area that will be the furthest away from your hand. Using the point of a dew drop ink pad, Cottage Ivy (Memento), (or green marker) ink the rose stems green. Apply the ink by working out towards the edge of the stamp. Working in this direction will help prevent the inks from smearing into each other.

2.e

2e: Using the same technique as in (2.d), use the point of **Rhubarb Stalk** (Memento) dew drop ink pad (or red marker) to ink only the roses.

2.f

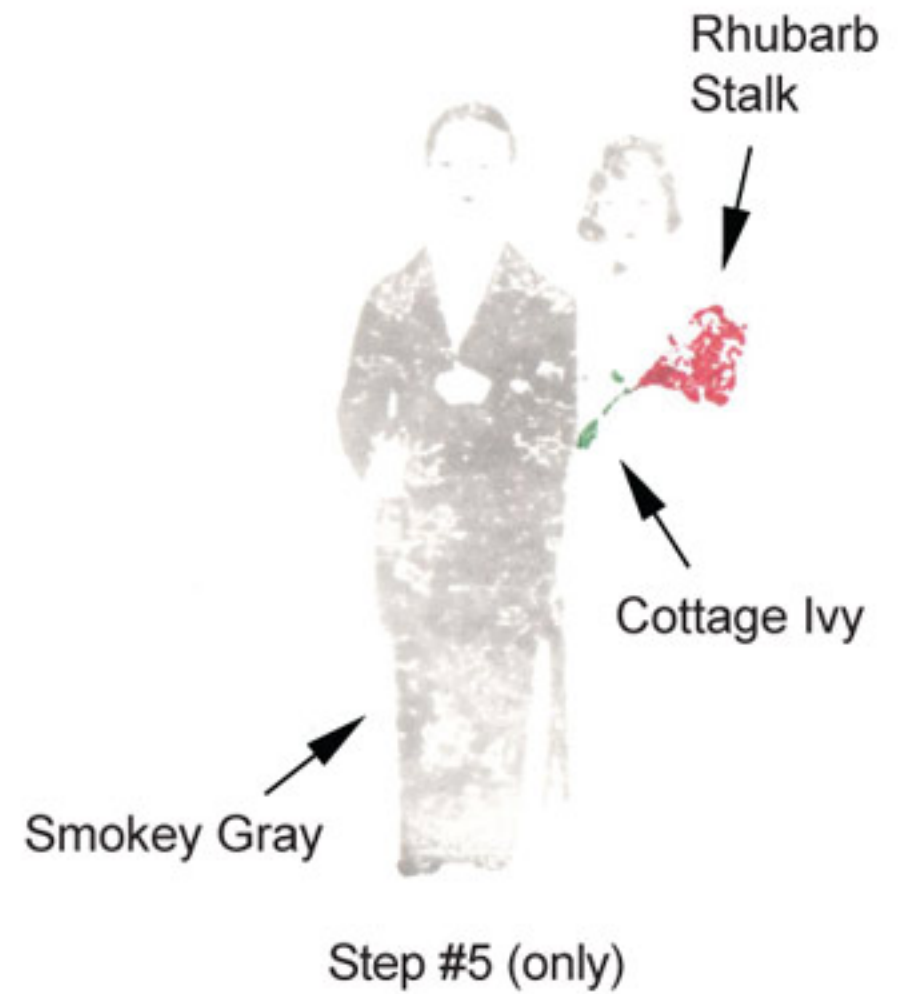

2f: The inked up stamp will look something like this before stamping.

2.g

2g: Here is stamp Step #5 lined up over previously stamped Step #6.

The roses, grooms hand & feet were used to line the stamp up.

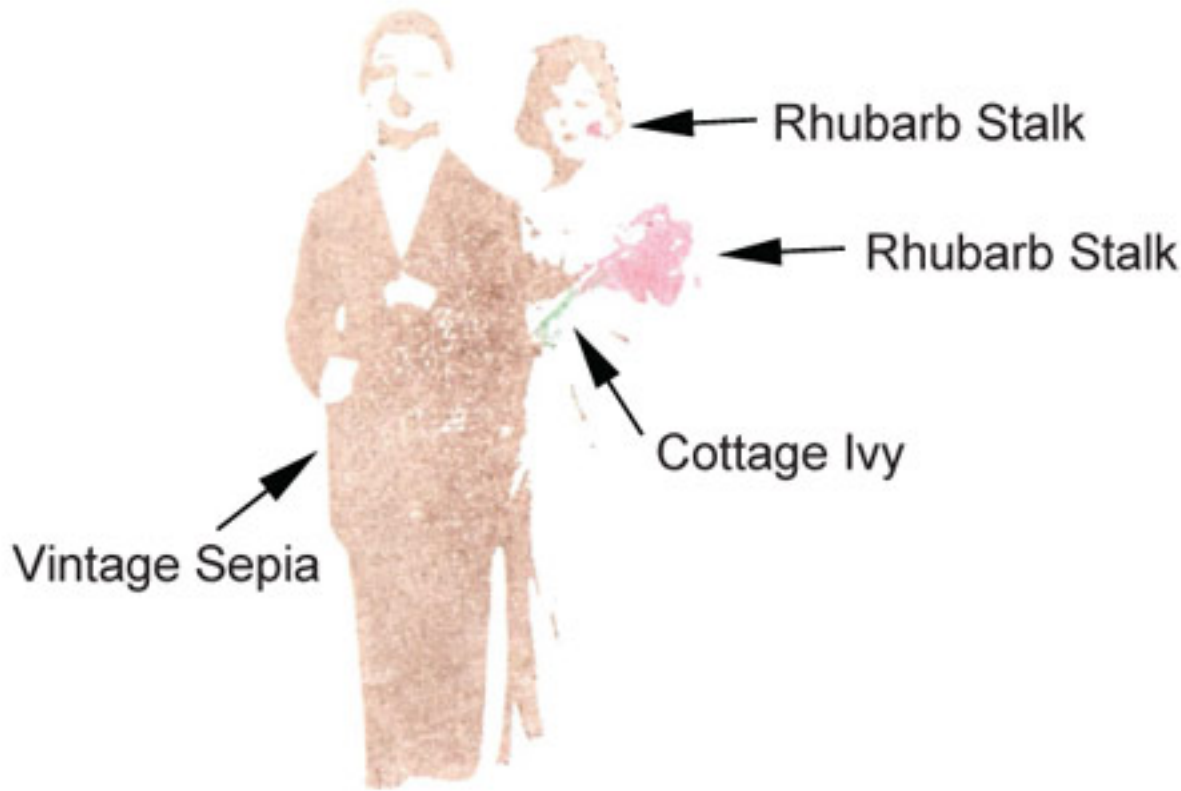

Step #5 (only)

Steps #6 & #5.

3] Repeat the same process as in 2.a-e, only instead of Smokey Gray, use Vintage Sepia (*VersaFine*) with full ink coverage. Again, use Cottage Ivy for the rose stems. Use Rhubarb Stalk for the roses, plus the Bride's left cheek.

Before stamping Step #4, stamp off one time.

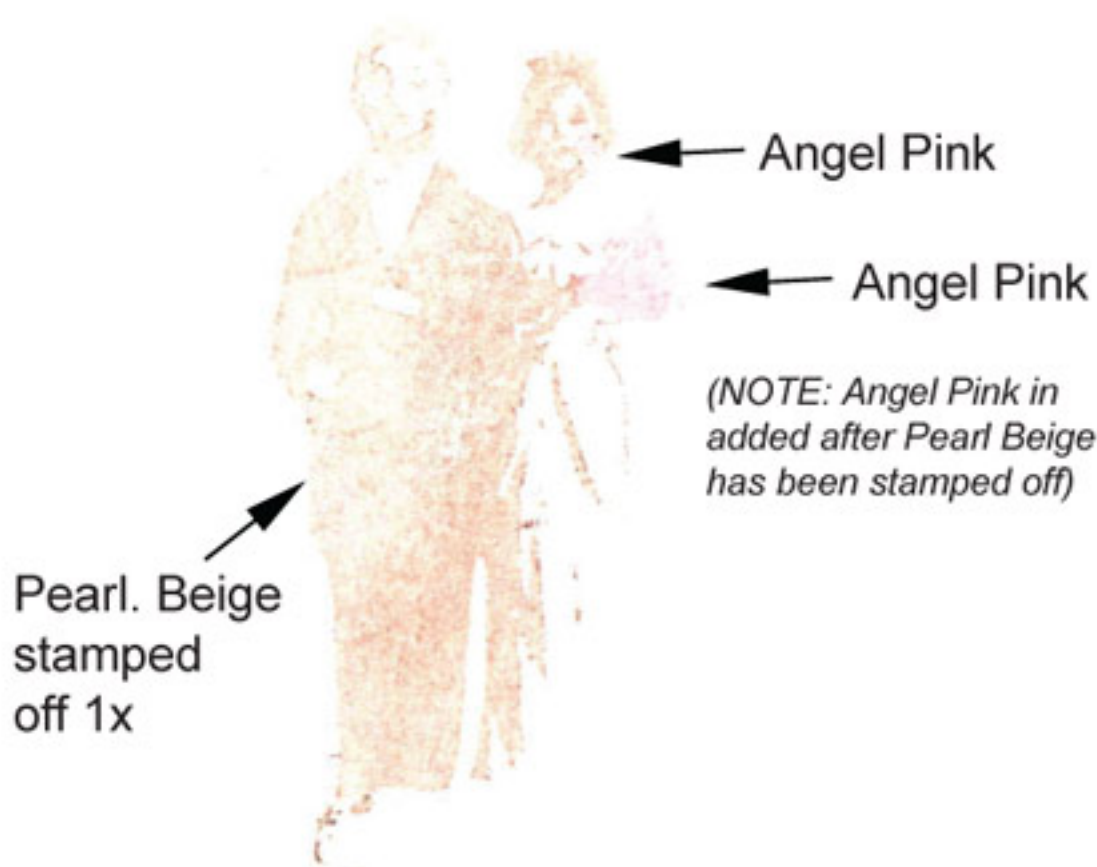

Step #4 (only) stamped after stamping off 1x

Steps #6, #5 & #4.

4] Repeat the same process for spot color as in 2] & 3]. This time with stamp Step # 3, ink full coverage with Pearl Beige (*Brilliance*) and stamp off 1x. Now wipe clean the roses (flowers only) and the Bride's left cheek area. Ink these areas with Angel Pink (*Memento*). Now stamp image.

Before stamping Step #4, stamp off one time.

Step #3 (only)

Steps #6, #5, #4, & #3.

5] Ink up & stamp Step #2 with Pixie Dust (*VersaMagic*).

Steps #6, #5, #4, #3 & #2.

6] Ink up & stamp Step #1 with Wheat (*VersaMagic*).

Finished 6 Step Wedding Couple with Spot Color.
